

Ayush Dutt Pathak

Software Engineer

Central University of Jharkhand | Integrated B.Tech – M.Tech (Computer Science)

pathakayush8194@gmail.com | +91 7307645571 | linkedin | Portfolio | Github

Career Objective

Motivated and passionate Computer Science student at Central University of Jharkhand, pursuing an Integrated B.Tech–M.Tech program. Highly interested in web development and machine learning, with a strong academic foundation and eagerness to work on real-world projects. Seeking opportunities to apply my skills while continuously learning in a dynamic and challenging environment.

Education

Central University of Jharkhand

Integrated B.Tech – M.Tech in Computer Science

2023 – 2028

CGPA: 8.95

Actively learning full-stack web development, databases, data structures, and foundational machine learning concepts.

P.G.P.E. School

Intermediate (Class XII – CBSE)

2023

84.4%

Developed analytical thinking and problem-solving abilities while exploring computer science fundamentals and programming concepts.

P.G.P.E. School

High School (Class X – CBSE)

2021

72%

Built early interest in technology, logical reasoning, and computer fundamentals, forming the foundation for a Computer Science career.

Technical Skills

Programming Languages: C, C++, Java, Python

Web Development: HTML, CSS, JavaScript (Frontend), Nodejs (backend)

Database: SQL, MongoDB

Tools & Platforms: VS Code, Eclipse IDE

Certifications

- Data Science Workshop — IIT Kanpur (2025)
- Generative AI — LinkedIn (2025)

Interests

- Web Development
- Machine Learning
- Problem Solving

Projects

ZipMart Full Stack E-Commerce Project

Tech: React.js, React Native, Node.js, Express.js, MongoDB

Live Demo | GitHub Repository

- Built an Admin Dashboard using React.js for managing products, users, and orders.
- Developed Customer and Agent mobile apps using React Native for shopping and delivery management.
- Created REST APIs using Node.js and Express.js, with MongoDB for database management.
- Implemented secure authentication, role-based access control, and responsive UI for enhanced user experience.

Full-Stack Web Application (Java Servlets & JSP)

Tech: Java Servlets, JSP, JDBC, MySQL GitHub Repository

- Developed a dynamic web application with secure user authentication, appointment booking, and admin approval dashboard.
- Implemented session handling, role-based access control, and complete CRUD operations using JDBC and MySQL.

Internship Experience

Full Stack Developer & AI Intern

Summer Internship

Invas Technologies

Live Demo | GitHub Repository

- Developed a full-stack Fire Safety Management System for incident reporting, emergency alerts, and safety monitoring.
- Implemented secure user authentication, role-based access control, and real-time data management features.
- Built responsive frontend interfaces and REST APIs using modern web technologies for seamless communication.
- Optimized application performance, database operations, and overall user experience through testing and debugging.
